

# SIZING

## A | HEAD

To measure the head circumference, place the tape around the head just about an inch above the eyebrows.

## B | CHEST

To measure the chest circumference, place the tape around the fullest part of the chest, under the arms.

## C | WAIST

To measure the waist circumference, place a tape measure around your bare stomach just above the upper hip bone.

## D | HIP

Measure the circumference about 23cm/9in below the waistline. Stand with feet together.

## E | INSEAM

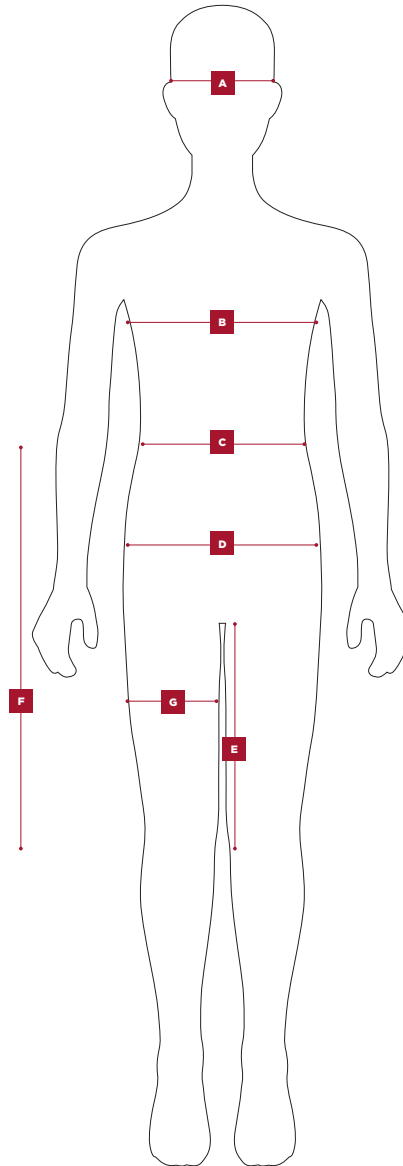

Measure from the crotch to the bottom of the leg (or desired length of hem), running vertically down the inside of the leg.

## F | OUTSEAM

Measure from waistline to the bottom of the leg (or desired length of hem), running vertically down the outside of the leg.

## G | THIGH

To measure the thigh circumference, place the tape around the fullest part of the thigh, below the crotch.

# TECHNOLOGY

## HELMETS

The MIPS (Multi-directional Impact Protection system) technology is scientifically proven to reduce rotational motion by absorbing and redirecting rotational energies and forces transferred to the brain from angled impacts to the head.

### MCT

MCT (Multi Composite Technology) Shell construction that uses a combination of Unidirectional and Multidirectional woven Pre-preg Carbon and Aramid fibers to provide a light yet rigid external shell.

Removable, washable X-Static® comfort liner with emergency release cheek pads are antimicrobial and manage odor while wicking moisture away from the head.

Removable, washable XT2® comfort liner and cheek pads are antimicrobial and manage odor while wicking moisture away from the head.

Dual density Varizorb™ EPS liner is meant to provide improved protection by spreading the forces of impact across a wider surface area.

## GOGGLES

### TRULOCK

TruLock system makes lens replacement quick and easy.

VLS (Variable Lens System) design allows transfer of standard and injection molded lenses in the same frame, allowing a versatile range of options from the same goggle.

## BOOTS

Exclusive Fox Duratac rubber compound provides durability and unprecedented grip on outsole and burn guard.

## GUARDS

CORDURA® brand fabrics are recognized for their long-lasting durability and resistance to abrasions, tears and scuffs.

D30® absorbs and dissipates energy during an impact, reducing the amount of force transmitted to your body compared to standard foams.

## RACEWEAR

### TRUMOTION

Cordura® TruMotion® zonal all-way stretch panels with laser perforation provide unmatched mobility and ventilation.

### TRUDRI

TruDri® main body fabric provides a soft, lightweight fit while moving sweat away from the body to keep you dry.

### RAP

Rider Attack Position (RAP)™ construction for improved ergonomic fit on the bike.

CORDURA® brand fabrics are recognized for their long-lasting durability and resistance to abrasions, tears and scuffs.

## LEGION

CORDURA® brand fabrics are recognized for their long-lasting durability and resistance to abrasions, tears and scuffs.

**10,000mm**  
5,000g/m<sup>2</sup>/24hr

10k/5k performance fabrics offer 10,000 mm of waterproofing and 5,000 mm of breathability. this combination is enough to handle moderate amounts of rain for long periods of time and allow adequate breathability while riding.

### 10k/3k

10k/3k performance fabrics offer 10,000 mm of waterproofing and 3,000 mm of breathability. this combination is enough to handle moderate amounts of rain for long periods of time and allow adequate breathability while riding.

### TRUMOTION

Cordura® TruMotion® zonal all-way stretch panels with laser perforation provide unmatched mobility and ventilation.

### TRUSEAL

TruSeal waterproof, breathable, seam-sealed construction locks out the elements.

### TRUDRI

TruDri® main body fabric provides a soft, lightweight fit while moving sweat away from the body to keep you dry.

Durable Water Repellent finish sheds moisture, dirt, and debris.

## LEGION cont.

HydroPak

Guaranteed leakproof hydration performance featuring their proprietary slide-seal™ top opening for easy filling and cleaning.

AX Materials are the first range of synthetics engineered specifically for the glove market. Each material is designed to enhance features like dexterity, flexibility, abrasion resistance, moisture management, touchscreen compatibility and more.

### Clarino

Clarino leather is globally known for its superior performance and physical properties and features conductive properties for touch screen compatibility.

## WOMENS

### TRUMOTION
